EDUCATION

New York University, New York, NY — *May 2027*
MS in Computer Science — **GPA: 4.00**
BS in Integrated Design and Media — **GPA: 3.96**

- **Summa Cum Laude (Top 5% of Graduating Class)**
- **Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming (OOP), Web Development, Design and Analysis of Algorithms, Software Engineering, Big Data, Human-Computer Interaction, User Experience

SKILLS

Programming Languages: Proficient: C++, Python, SQL & **Familiar:** Java, JavaScript, Swift, HTML/CSS
Frameworks & Tools: GCP (BigQuery, Cloud Run, Cloud Build, Secret Manager), SwiftUI, UIKit, Xcode, Firebase, React, Tailwind, Kafka, MySQL, Elasticsearch, Pandas, NumPy, LangChain, Git, Linux, Shell Scripting, Streamlit, Figma
Interests: Minimalist design, gymnastics, puppies, cat memes, singing, piano, **all things Miffy,** hotpot, jasmine green tea

WORK EXPERIENCE

Software Engineer Intern — *May 2026 – Aug 2026*
Adobe, ***Silicon Valley Headquarters***

- Designed and developed **Realtime Voice Quiz** in **Acrobat Mobile** using **Swift, SwiftUI,** and **GPT-Realtime,** enabling background interactions with **ActivityKit Live Activities** and targeting **30% increase** in in-app engagement
- Architected function-calling system between **GPT-Realtime** and **iOS** client using custom tools for quiz orchestration
- **Optimized latency and cost** by injecting app context on user speech and using conversation history for follow-ups
- Developed and shipped **hands-free voice greeting** feature to **production,** projected to reduce session exits by **20%**

Software Engineer Intern — *June 2025 – Aug 2025*
SCBX ABACUS Digital, ***Global Fortune 1000 Financial Technology Company***

- Developed an internal AI assistant using **LangChain** and **OpenAI** frameworks to automate metadata generation and data queries across **50+ datasets,** integrating **BigQuery, SQL validation,** Confluence search, and **JSON parsing**
- Architected a scalable summarization pipeline with chunking optimized for large-token inputs using **tiktoken,** deployed on **GCP Cloud Run** with **Secret Manager** for secure access, reducing manual documentation by **over 90%**
- Integrated pipeline into **CI/CD workflow** with **Cloud Build** and **GitHub Actions** to automate linting and testing

Software Engineer Intern — *June 2024 – July 2024*
PTT Public Company Limited, ***Global Fortune 500 Energy Provider***

- Developed **a report generation tool with pandas** to automate data processing, improve efficiency in analyzing large volumes of client data, and support the creation of feasibility reports, achieving **over 900% increase** in productivity
- Enhanced **API reliability** and edge-case handling through EV charging workflow and integration testing with **Kafka**

Computer Science Tutor, CRLA Certified — *Sep 2025 – Present*
NYU Polytechnic Tutoring Center

- Tutored students and led review sessions for Programming and Problem Solving and Data Structures and Algorithms

SOFTWARE PROJECTS

MoodMap, Interactive Emotion Visualization Platform

- Developed a geospatial web app using **JavaScript, Leaflet.js, Tailwind,** and **Firebase** for real-time emotion sharing
- Engineered **data synchronization, geolocation,** and dynamic filtering to visualize patterns for **200+ active users**

24 Game Solver, Algorithmic Web App for a Math-Based Puzzle

- Developed a **Python-based algorithm** to efficiently solve the 24 game, handling multiple variations and edge cases

Alien Dating App, Futuristic Dating Platform Simulation

- Built a web app using the **p5.js library** to simulate online dating app with interactive **chatbot** and **video call** features

LEADERSHIP EXPERIENCE

Association of Thai Students in USA **(Director of Tech)**, Thai Student Association **(President)**, Generasian **(Layout Lead)**
